Bouygues Energies & Services in Switzerland

We understand buildings

No. 1 in building technology

As the Swiss market leader in building technology and facility management, we have the expertise and experience to carry out large-scale national projects reliably and safely.

We understand buildings

Our slogan “We understand buildings” is an expression of our expertise in all trades and solutions for building projects, from individual elements to the completed structure.

Nationwide network of locations across Switzerland

We have a presence in every region of Switzerland, with around 100 locations nationwide. This means we are familiar with local characteristics, allowing us to focus on the specific needs of our clients.

Energy efficiency

Energy efficiency is part of our DNA. The example of the smart building shown above demonstrates the areas in which we are able to offer consistent energy-efficient solutions.

Comprehensive services

From consulting, planning and installation to operation and maintenance with our 24/7 call-out service, we support our clients in every phase of a project.

Multitec

Multitec stands for projects involving several disciplines and teams from the group from all regions. Cross-trade collaboration allows us to develop and realise integrated solutions from a single source.

Electrical engineering

- Electrical, low- and heavy-current systems
- Lighting systems, emergency and public lighting systems
- Switchgear construction and control systems
- Universal cabling for buildings
- UPS systems
- Lightning protection
- VDE 702/703 testing of appliances

Heating, Ventilation, AC, Sanitation

- Heating systems
- Cold water systems
- Ventilation/air-conditioning systems
- Ventilation system cleaning and hygiene inspection
- Sanitation systems
- Compressed air systems
- Clean-room and laboratory systems
- Clean-room components for hospitals, air outlets for operating theatres

Refrigeration systems

- Commercial refrigeration systems
- Plug-in and centrally cooled refrigeration and freezer cabinets
- Blast chillers, ice machines, exclusive representation
- Large heat pumps
- Industrial refrigeration systems
- Special concepts for shops and alternative energies, energy optimisation

ICT Services

- Cloud services and managed services
- Telephony, UCC and video solutions
- Networks, Wi-Fi and security
- Client and server, storage and backup
- Hospitality TV and infotainment
- Digital signage
- Roll-out and maintenance services across Switzerland
- Fibre-optic and low-voltage installations

Security & Automation

- Fire alarm systems
- Burglar alarm systems
- Video surveillance systems
- Access control systems
- Voice alarm systems (EVAK)
- Intercom systems
- Safety way guidance systems
- Building and process automation
- Building systems technology
- Facility management system

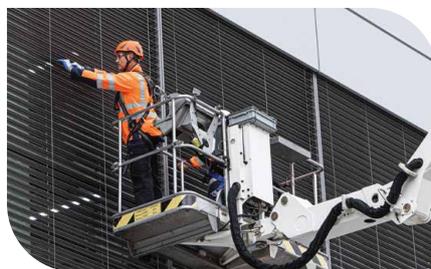

Technical Services

- Maintenance (inspection, repairs, troubleshooting)
- 24/7 call-out service, 365 days a year
- Property and warranty management
- Innovative products for operational optimisation
- Services from a single source for HVCSE, security and automation and ICT

PV & Solar/E-Mobility

- Consulting, planning and installation
- Planning applications and applications to the funding programme
- Solar systems and energy storage devices
- Heat pumps
- E-mobility, charging stations
- Service and maintenance

Facility & Property Management

- Commercial facility management
- Technical facility management
- Infrastructural facility management
- Property management
- Construction projects
- Relocation management
- Security services

Multitec/National projects

- Cross-trade collaboration
- A multilingual partner (SPoC) throughout Switzerland
- Centralised coordination of regional needs
